

Evidence-based Practice in Insurance Medicine

Date: 16th September 2020

Time: 13.30 to 17.00 hr.

Place: University Hospital Basel

Reasons to celebrate! 10 years ago, the University of Basel established a clinical professorship of insurance medicine to advance and promote the production of evidence in insurance medicine. 5 years later, this chair founded the international Cochrane Insurance Medicine Field together with partners in the Netherlands, Sweden and Canada. Both activities made important contributions to professionalise insurance medicine in Switzerland and Europe and indicate directions for an insurance medicine based perspective on clinical research that informs practice. We now welcome you to celebrate these achievements together with us and our collaborators in Basel, Switzerland and Europe at a pre-conference symposium to the international EUMASS congress.

13.00 – 13.30	Registration
13.30 – 13.45	Welcome! Evidence-based Insurance Medicine and Cochrane Insurance Medicine celebrate their anniversaries!
	Part I: Evidence Production
